

Let Us Create Something Fun and Exciting

Just face it, work is work, the challenge is to find something fun and exciting, maybe challenging, instead of the same ol, same ol. Andi and I were brainstorming a while back, just sharing what we loved about our jobs, and the more we talked the more it became obvious we both loved to be super creative. We both enjoyed the challenge of doing something that has never been done before. Many contractors would say that is too hard, I don't want to think that much. Not us, we both love a challenge and we love to be creative. Between the two of us we have every skill required to create the space of your dreams. As a matter of fact in a few areas our skills overlap, so much the better for you!

We know we work well together, after working together in many fund raisers for our Home Builders Association and some smaller jobs over the years. So give us your concept and Budget and let us do what we do best... Create for You!! Contact Us Now!

"We truly appreciate your kindness, your skill, your attention to detail, & your sincerity. This has been a pleasure- thank you for building such beauty into our home-we cannot wait to begin our lives there....."

Continuing education is a key component of quality workmanship. Staying informed about new materials, techniques and trends is a time consuming task, but one that is necessary.

Raving Fans.....

Andi did a great job helping us remodel our kitchen, dining room and living room. Our house went from OMG 1970's decor to Rustic Hunting Lodge. We are more than pleased with Andi's work and the end result. Andi is fun to work with and is full of great ideas. If you... are thinking about redecorating, hire a professional. Hire Andi. Gary F. - Joliet, IL

I know John to be highly dedicated to his craft, honest and hardworking, someone who can think logically and solve problems that arise. Ken P. Lemont, IL.

From the clearing of the property, meetings with the architect over changes, weather delays with the stone from Wisconsin, basically every last detail until the final walk through in November 1999 I worked with John on a daily basis. He is highly organized, extremely professional and worked well with all the subcontractors. Shelia W. Lemont, IL.

Andi has an unerring sense of color. Andi stepped in with just the right shade of light blue to compliment my existing furniture. She also chose complimentary colors that transitioned to the kitchen area. She listened to our desires and came up with the perfect color palette. I love her choices for our carpeting, drapery, and wall colors. Everything suits our personality and tastes. Joe & Janice C. - Joliet, IL

We are with you every step of the way >>>

From the very first visit we walk beside you. Intently listening to the dream you have for your new space. Our creative minds coupled with your idea, add some very talented craftsmen and craftswomen and we will make your dream reality. Andi will walk you through color and material selection, including furnishings, while John works on the design for the actual construction of the key components of the project. No detail is too small. We do not overload you with pictures from past jobs, because we don't want you to have any pre-defined ideas. Although some components of the same theme will be similar we strive to make them just different enough to be called yours. Contact us today so we can begin this journey together.
